## Namibia Trip with Tsumeb Museum Radio Equipment : Graham Reid ZS6GJR

During August 2017 my wife and I did a trip through Botswana and into Namibia. We then travelled from East to West and then North to South of Namibia to end the trip at Augrabies Falls in South Africa – a total of more than 6 500 km over a period of 23 days.

During the earlier part of the trip we stayed 3 days in Tsumeb and had some time to visit the Meteorite there as well as the Tsumeb Museum.

Amongst many other interesting items that this Museum has in it's well kept displays were some very old radios and associated equipment which were probably used by the German soldiers and personnel during the World wars.

I have included pictures of this equipment and some of our older members and readers may even recognise some of these items. The information given was relatively sparse but I have provided what I was able to take photographs of with its description.

Hopefully you will find this interesting.
